## SPC FLOOR CONSTRUCTION

## SPECIFICATION

|                       |                          |   |
|-----------------------|--------------------------|---|
| SPC FLOOR             | 1800*227.5*6.5mm         |   |
| Finish                | EIR                      |   |
| Test item(s)          | Test method(s)           | Test result(s)  |
| Static Load Limit     | ASTM F970-17             | Residual Indentation:<br>0.02mm   |
| Dimensional stability | ASTM F2199-18            | Length Direction:-0.02%<br>Width Direction:-0.03%                             |
| Wear resistance       | EN 13329:2016<br>Annex E | Average abrasion<br>cycles:5200 revolutions<br>Abrasion class:AC4             |
| Static Coefficient    | ASTM D 2047-2011         | Static coefficient of friction:<br>Dry condition: 0.41<br>Wet condition: 0.56 |
